- Implementing and integrate a **Pytest** plugin to the Jupyter-Hub project and run some test.

💻 WORK EXPERIENCE

Front-End Developer in Training
Online

📅 Apr 2022 – Present   ● Zurich, CH

- I have taken some online courses in which I have acquired skills about HTML, CSS, JavaScript, React, APIs, Responsive Design, UI Design, TypeScript, Figma, etc. I have been able to apply my knowledge by developing guided projects or projects from scratch.

Career Break

📅 Oct 2018 – Feb 2022   ● Germany - Switzerland

- At this time I moved to Germany. I lived there for two years and I took an integration course where I learned German and about the German culture. Then I moved again, this time to Switzerland, where I continued to learn a bit more German, improving my English and started my journal learning as a Front end Developer.

Contractor
Technological University of Pereira

📅 Sep 2015 – Nov 2017   ● Pereira, COL

- Within the University I was part of a group where auditing, training and development projects of software products for third parties were carried out. In each of the projects I played different roles, which involved communication, coordination, research and documentation skills.
- Click here for project details.
